call	Implant/Attachments		

Guarantee

Materials and Workmanship

Our work will be free of defects related to materials and workmanship. We also guarantee that the appliance will fit the provided cast and be constructed to the design given on the Rx. TDA will remake or repair any appliance at no cost or reduced fee depending on the circumstances of the case. All materials and workmanship carry a one-year guarantee. Remake evaluation will be covered on a case by case basis with the lab manager.

ARTS Line

While our conventional restorations are extremely functional for day in and day out dentistry, some of our clients/patients desire a restoration with an extra touch. TDA is proud to offer our ARTS line prostheses that compare to other esthetic departments. Please specify in your special instructions on your Rx if this is the restoration that is right for your case.

Credit Policy

TDA offers an open monthly account on all cases. Each case is invoiced and statements will be mailed around the first of the month. Statement balance is due within 20 days of receipt. A 1.5% service charge will be applied to any balance over 20 days past due. Customers with outstanding balance over 90 days will be converted to a C.O.D. basis. Accounts that are sent to our attorney for collections will be responsible for all attorney fees and court costs.

Shipping

TDA pays the cost of shipping both ways. You will be provided with labels at no cost; because we believe it is our responsibility to shoulder the cost of receiving and sending your casework. This only applies to ground shipping.
